#### Live Oak's Public Library.

There are many citizens in our midst, possibly, not aware of the fact that we have a library of more than six hundred volumes of well selected books. Many of the children are hearty patrons of this institution and the interest is growing. The number of books should be doubled this year. The demand for new and more books is growing weekly. Anyone can aid in this cause by paying one dollar a year and ter, the original of which is now on file in become a member of the library association. I know of no place where a dollar invested can do more good. The library building is the yellow cottage west of the court house. The rooms are nicely furnished and the books can be gotten out on Tuesdays and Fridays. There is a library board consisting of some good, public-spirited women and men who look after the institution and Mrs. Rixford acts as librarian. It is the best investment in the city, yet there are only a few who have shares in the vested in this library brings larger results than one dollar invested in anything else in the city. Intelligence counts for more today than it ever did in our land and during the next generation intelligence will still count for more. We can't hope for a great improvement on the part of the generation that is passing away but the boys and girls who constitute the coming generation must be informed or life will be a failure with them. Good books are our best companions and a public library is the cheapest way to name and dollar into this institution and get the benefits for yourself and your children. Do not sponge off of others' generosity but do the manly and womanly not by taking attachment. benefit the largest number; so put your and womanly act by taking stock your-
